

Bluecode.

Our brand and
how you use it.

Introduction.

Introduction

Welcome to the Bluecode brand guidelines. We have designed these guidelines for everyone who is involved in building our brand and in creating material for communication purposes and projects. Our brand principles have been carefully developed and we prefer a consistent identity. However, there may be cases that require an individual solution. For specific questions please do not hesitate to contact us by e-mail: marketing@bluecode.com

What is Bluecode?

Bluecode is the first pan-European mobile payment solution for banks, acquirers, banking software providers, payment platforms and retailers. It enables cashless payments via Android smartphone, iPhone and Apple Watch combined with value-added services at cash registers, vending machines, with apps of banks and retailers as well as with loyalty card apps.

Brand.

Brand

At Bluecode we believe that great brands tell stories, and ours begins with the very first impression—our logo. Our logo was designed around the past, present, and future, and infused with various elements of our product and company.

The Blue Coda

A recognizable brand symbol to be used across all communications.

co • da

- NOUN

the concluding passage of a piece or movement, typically forming an addition to the basic structure.

Transparency

Unlike other Financial or Technology solutions, which may harbor and mine data, Bluecode is built around two key principles; anonymity and security. Our brand symbol reflects this value through the transparency visible within the symbols which overlap to complete the Blue Coda.

Speed and Movement

Inspired by one of Bluecode its key Unique Selling Propositions, the fastest way to pay and finalize a transaction, the logo encompasses the universal symbol of speed, the fast forward icon.

Hidden in plain sight

Look closely and you will see that there is more than meets the eye.

Logo.

Variations

We are delighted that you would like to use the Bluecode logo in your communication. In general, the logo can be used in three different ways - horizontally, vertically and as a symbol. However, you should use the primary one at all times, as long as there are no exceptions.

Secondary logo (vertically)

Color Codes

If you've ever wondered what color codes you should use for Bluecode, read on. You should use CMYK for standard prints (e.g. flyers), RGB/HEX for on-screen (digital) and PANTONE for plastic prints, along with the codes listed below.

CMYK 89 / 59 / 0 / 0
RGB 25 / 97 / 172
HEX #1961AC
PANTONE 2727 C

CMYK 100 / 82 / 7 / 1
RGB 0 / 72 / 153
HEX #004899
PANTONE 2728 C

The image shows the Bluecode logo, which consists of a stylized play button icon on the left and the word "bluecode" in a lowercase, sans-serif font on the right. The play button icon is composed of two overlapping triangles pointing right. The word "bluecode" is in a dark blue color. A registered trademark symbol (®) is located at the top right of the word. Two sets of color codes are provided: one for the dark blue color and one for the lighter blue color used in the play button icon.

CMYK 0 / 0 / 0 / 0
RGB 255 / 255 / 255
HEX #FFFFFF
TRANSPARENCY 80%

CMYK 0 / 0 / 0 / 0
RGB 255 / 255 / 255
HEX #FFFFFF

The image shows the Bluecode logo on a solid blue background. The play button icon and the word "bluecode" are in white. A registered trademark symbol (®) is located at the top right of the word. Two sets of color codes are provided: one for the white color with an 80% transparency value, and another set of white color codes without transparency.

Background Variations

Please try to use the blue logo whenever possible and display it on a white background. In exceptional cases, use the other options that are shown on this page.

Minimum Size

This page shows you the minimum size of the primary and the secondary Bluecode logo. Please note that there is a difference here if you use it on print material or on the website.

The advertisement features a young woman with short brown hair, smiling and looking up while holding a smartphone. A large, stylized blue smartphone graphic is overlaid on the right side of the image. The phone screen displays the 'bluecode' logo and a white play button icon. A green circular callout bubble in the top right corner of the phone graphic contains the following text:

1. Downloaden
2. Konto verbinden
3. Bezahlen und sparen!

The main headline at the bottom of the phone graphic reads: **Mit jedem Einkauf für den nächsten sparen.**

Below the headline, the text states: **Zahle mit der Bluecode App und spare automatisch 5% bei jedem Einkauf.**

At the bottom of the phone graphic, there are three elements: the 'Download on the App Store' logo, the 'GET IT ON Google Play' logo, and a QR code.

The background of the advertisement is a blurred outdoor scene with green foliage. The bottom right corner of the overall image features the 'bluecode' logo in white on a dark blue background.

The **Bluecode Corporate Identity**, which includes both the Bluecode Corporate Design and the Bluecode Logo, is to be applied uniformly by everyone and cannot be changed individually. Exclusively Bluecode (Blue Code International AG) has the right to change the Bluecode corporate design and/or the Bluecode logo from time to time. In this case contractual partners of Bluecode will be informed of the changes in good time. The Brand Manual is valid in the respective latest version.

Style of the word mark:

The term "Bluecode" or "BLUECODE" must always be used in one of the styles portrayed in the brand manual. Spaces may not be added to or subtracted from the term „Bluecode" (such as "B l u e Code" or "BlueCode", etc.). Any other use is subject to the scheme owner's prior written approval.

Use in conjunction with the word or graphic signs:

Any use of the "Bluecode" terminology which might negatively impact the differentiability of the trademark must be avoided. This especially applies to the use of the term "Bluecode" when this is used before or after other terms and/or the connection of the term. "Bluecode" by means of a dash or slash to:

- If a wrong company designation, such as Blue Code AG, or
- another brand name, such as Blue Code/XY method, or
- another bank and/or financial service, such as Blue Code checking account, or
- another product similar to bank or financial service.

The word marks of Bluecode must not be used in conjunction with a possessive pronoun (such as "Our Bluecode method offers you ..."), but may only be used as a fixed term (for example "Pay easily, quickly, and securely with Bluecode").

For use of the word/figurative mark on the internet:

In case of the linking of the Bluecode logo only the website of the scheme owner may be linked and not a subpage or another website.

Use in conjunction with other payment variants:

- If a trademark is offered in addition to other payment and verification variants, the spacing rule must be complied with.
- In order to equally portray the Trademarks with the other payment variants, the Bluecode mark must be used in the same size, frequency, and level of color as the references to the other payment variants.
